Q1

Answer presented as correct: A) Proximal Policy Optimization (PPO)■(

Reason: Clearly aligns with how the concept is described in the question.

Q2

Answer presented as correct: B) Observations lack some hidden variables■(

Reason: Clearly aligns with how the concept is described in the question.

Q3

Answer presented as correct: B) Use of neural networks■(

Reason: Clearly aligns with how the concept is described in the question.

Q4

Answer presented as correct: D) Policy-gradient estimate

Reason: Clearly aligns with how the concept is described in the question.

Q5

Answer presented as correct: B) Target networks■(

Reason: Clearly aligns with how the concept is described in the question.

Q6

Answer presented as correct: D) Deterministic policies

Reason: Clearly aligns with how the concept is described in the question.

Q7

Answer presented as correct: C) Data augmentation■(

Reason: Clearly aligns with how the concept is described in the question.
