Narrative Questions

What specific problem, challenge, or need regarding the diffusion of AI as a General Purpose Technology (GPT), with reference to one of the four questions regarding Education in the AI Economy, does your project aim to address on behalf of AIEI, and why is that topic important to the world's economy? *
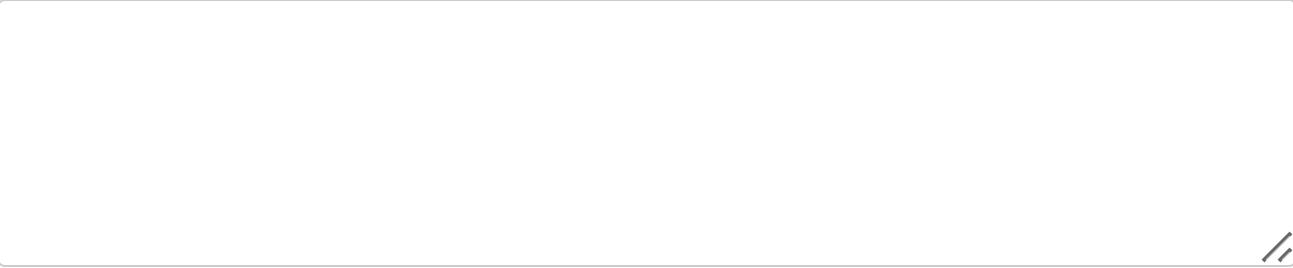

[ ]

Word Count: **0 / 100**

What methodology will you use to address the identified problem, challenge, or need? *
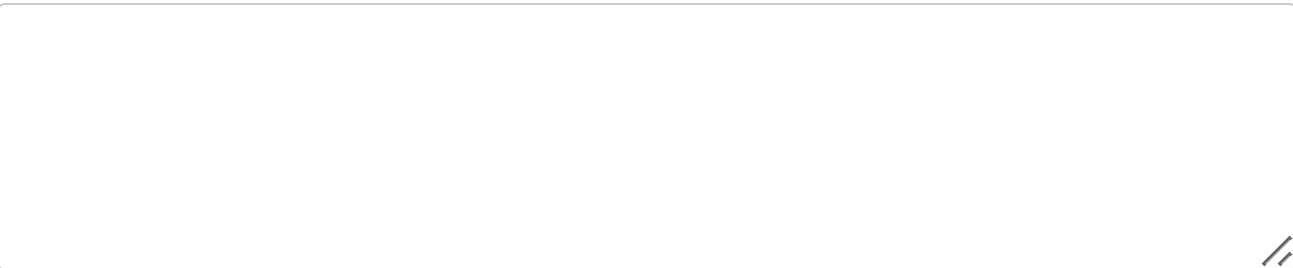

Word Count: **0 / 200**

Why is your team or organization best suited to carry out this project? Include relevant experience or expertise in education and skilling—specifically in K–12 education; post-secondary education including community, technical, and vocational colleges; and apprenticeship programs—as well as in the economics of human capital and labor markets, human behavior, organizational behavior, and the interaction of economic actors, institutions, and systems. *
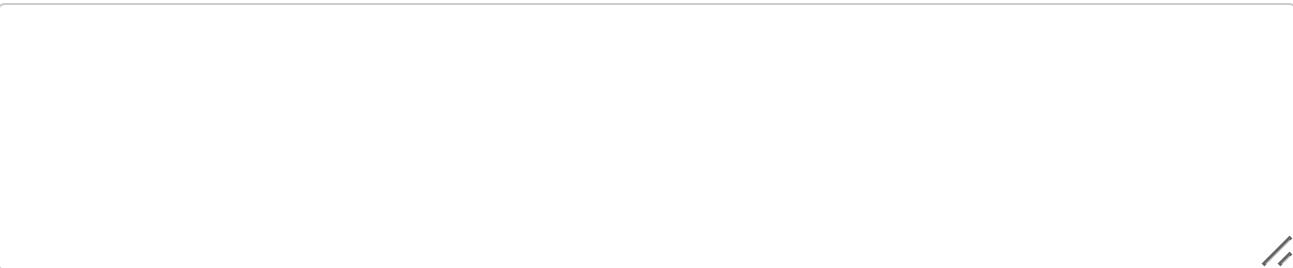

Word Count: **0 / 100**

What are the expected outcomes and impact of your project in understanding and accelerating AI diffusion with reference to one of the four problem questions you have chosen to address? Include any measurable goals or metrics. *

Word Count: **0 / 200**

What are potential risks or challenges you anticipate in implementing your project, and how do you plan to mitigate them? *

Word Count: **0 / 100**
